

Production Manager

Statesville, North Carolina

Position Purpose

- AmesburyTruth Statesville is a greenfield facility looking for a Production Manager to help drive us to our final step in consolidation and production setup.
- This position has responsibility for all aspects of the manufacturing operations to ensure a safe, highly productive environment that will provide customer satisfaction with a high-quality product. The ideal candidate will utilize education, experience and technical knowledge to provide leadership and training regarding manufacturing methods, production systems and processes, procedures, personnel development and Continuous Improvement.

Essential Duties & Responsibilities

- Responsible for production in a 24/7 operation while keeping the team aligned with the Company's mission, vision and values.
- Maintains focus on continuous improvement of productivity, cost and scrap reduction, and positive price variance.
- Works with Design and Manufacturing Engineering to improve manufacturing processes.
- Leads effort to improve labor efficiency through sound lean practices working closely with Manufacturing/Industrial Engineering.
- Supports Product Development and new product launch.
- Works with Quality, Sales/Marketing and Design Engineering.
- Develops, improves and manages towards key performance metrics.
- Provide support to customers and other facilities in support of Company initiatives.
- Promotes teamwork among departments to provide good product flow and accountability for final product.

Knowledge / Skills / Abilities

- Understanding of health and safety standards and compliance.
- Understand production processes and techniques relative to the type of work being performed.
- Raw materials and procurement activities.
- Production costing and standards.
- Planning, organizing, and delegation of work.
- Familiar with value stream mapping, managing for daily improvement, Kaizan, 5S, TPM, Kanban, and goal deployment.

Qualifications / Prior Experience

- Bachelor's degree in a related field (such as business administration, management, engineering, or industrial technology), or equivalent.
- Lean manufacturing and continuous improvement experience is required. Six Sigma experience is a plus.
- Experience in extrusion and/or textiles is a plus.
- Proven analysis and presentation skills including use of common tools such as Microsoft Word, Excel, and PowerPoint.
- Minimum of five years of manufacturing experience is preferred.

Work Environment / Other Requirements

- Must be able to use office equipment (scanner, printer, copier, telephone, computer).
- Must be able to talk/hear/sit for prolonged periods of time.
- Ability to lift 50lbs on an occasional basis.
- The work performed is conducted in a climate-controlled facility with moderate noise levels that are within OSHA Limits.

The above statement reflects the general details considered necessary to describe the principal functions of the job identified, and shall not be construed as a detailed description of all the work requirements that may be inherent in the job.
