

Contour®

Locks

The Contour multi-point locking system for commercial aluminum windows is attractive, easy to operate, and high-performing. The best value in commercial casement and awning window locking hardware.

The Contour™ lock maintains a longer handle and is cleverly designed to meet ADA requirements. Increased travel allows up to 5 lock points on casement sash sizes ranging up to 102" (2,591 mm) tall.

PRODUCT HIGHLIGHTS

- Non-handed lock improves clearance for easy screen removal.
- Longer more robust handle helps meet ADA requirements
- Casement lock points capable of resisting up to 350 lbs. per lock point and 450 lbs. for awning lock points
- DP 100 capable on gateway size (36" x 60")
- Sequential locking reduces locking effort on larger sash sizes
- Custom-designed, profile-specific tie bar guides and keepers offer maximum hardware application flexibility
- Integrated gasket minimizes the opportunity for air, water, light, and insect intrusion
