

DESIGNED
FOR EASE.
BUILT TO
LAST.

Designed for precise alignment and easy installation, the V500 Hinge delivers superior performance with built-in vertical and horizontal adjustment at the barrel, allowing for fine-tuning without the need to open the door. Minimal routing requirements, with a lift-off design, reduce installation time and simplify the process. Ease of installation and adjustment equals money in your pocket.

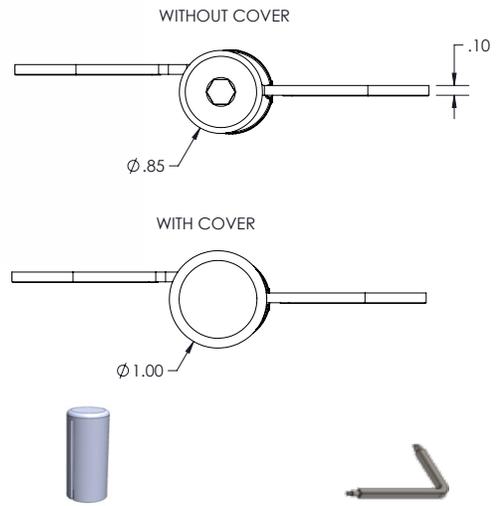

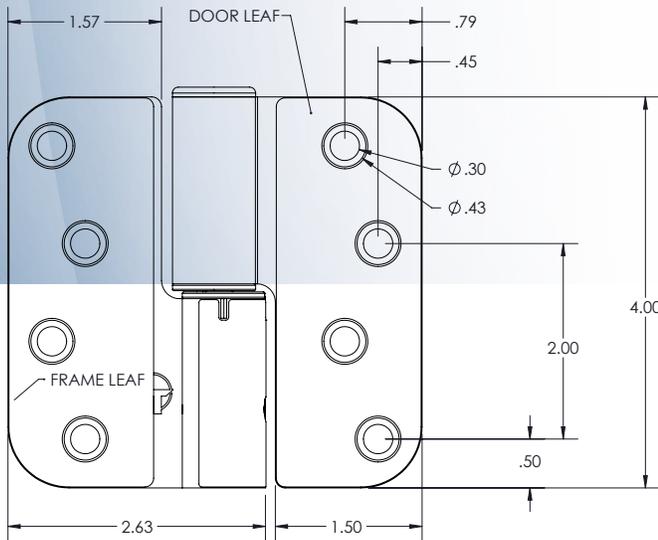

PRECISE ALIGNMENT WITH LONG LASTING PERFORMANCE

- Built-in $\pm .100$ " horizontal and $+.25$ " vertical barrel alignment enables fast, precise door positioning
- Adjustment can be done without the need to open the door saving time and simplifying installation
- Minimal fabrication required, allowing for increased efficiency in the plant
- Lift-off design allows quick panel removal, increasing the speed for factory installation and service
- Non-removable pin adds an extra layer of security and peace of mind
- Left and right-hand options support flexible door configurations
- Meets BHMA Standards – 350K cycles
- Optional multi-purpose tool functions for both adjustment and as a construction handle
