HINGES

V400

The V400 adjustable guide and set hinges provide vertical and horizontal adjustment for a perfect fit. The 4x4 hinge, is offered in steel, brass, and stainless steel substrates to meet your specifications.

product highlights

- Recommended for: aluminum, composite, vinyl, and wood
- Seamlessly retrofits a 4" X 4" one-step pocket route with 5/8" corner radius
- Hex head adjustment screws, not phillips or slotted, to provide secure tool engagement and prevent stripping during adjustment
- Screw hole locations optimized away from panel edge to prevent accidental wood splitting
- Panel leaf incorporates a unique shield to keep out debris and provide a premium appearance in the closed position
- Incorporates Teflon filled bushings for increased wear resistance
- Non-removable pin (NRP) option available for secure out-swing applications
- Adjusts 1/4" vertically and 3/16" horizontally
- Easily reversible for either left or right-hand hinge applications
- Innovative, patent-pending adjustment mechanism achieves extremely low adjustment torque with a standard 3/32" hex wrench
- Exceeds BHMA – grade 3 standards for wood, vinyl, aluminum and steel doors.
- Available in steel, brass, and stainless steel substrates
- Steel, and many industry standard powder paint colors (PVD recommended for coastal locations)
- Bushing blends with the hinge finish
- Matching mounting screws available to blend perfectly with hinges
