

Engineered Solutions. Trusted Results.

MORTISE LOCKS

Single Point Surface Mount

Our single-point sliding door lock is the work-horse in the industry, with proven reliability and strength. We incorporate a variety of trim-plate options, making our system compatible with all standard fabrication in the market today.

product highlights

- Can withstand forced entry loads in excess of 1000 lbs.
- Hook bolt has anti-slam feature that will retract the bolt if the door is extended
- Adjustable reach hook bolt is actuated by 90 degree rotation of the hub
