

Engineered Solutions. Trusted Results.

HANDLES AND COVERS

Optima

Optima is an innovative operator that offers interchangeable cover and folding handle design. Optima incorporates all the same strength and performance characteristics of our Maxim® operators.

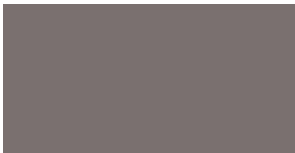

product highlights

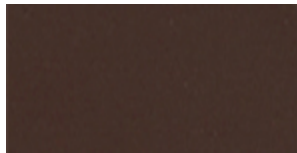

- Smaller sealable housing gasket
- Reduces water/air infiltration and eliminates caulking
- Removable cover that reduces inventory costs by allowing non-color specific operators to be stocked
- Integrated snap feature allows fastenerless cover attachment
- Full flip folding handle
