LOCKS

Integrated Lock and Tilt Latch DualTech Flush Mount

The DualTech semi-flush mount is an ITSL designed to be fully installed in seconds with an innovative quick connection system between the lock and tilt latch. The low profile semi-flush mount design provides a clean window appearance and helps maximize the window opening. This patented design adapts to a wide range of profiles and extrusion tolerances. A left hand and right hand tilt latch and lock are offered in three different lengths and are easily installed a fixed distance from the edge of the sash based on the width of your window.

product highlights

- Recommended for: composite, vinyl, and wood
- The semi-flush lock design reduces the visible hardware and maximizes the opening for ventilation and egress
- Concealed tilt latches achieve smooth, uninterrupted check rail sight lines
- Available in several plug-n-play marked based visuals in both stand-alone sash lock and DualTech configurations
- Universal symbols allow for intuitive operation of the lock and tilt latch functions by simply using the lock lever
- Positive detent in both the lock and unlock positions provide a secure feel
- Simple and fast one-step route for both the latch and lock
- DualTech latches use Flex-Fit technology to minimize SKUs – only 3 links for all window sizes
- Short supply chain for reduced lead times and lower inventory levels
- All zinc die-cast sash lock construction for maximum strength
- Sash weld is not compromised, helping maintain corner strength for air, water and structural testing
- Helps your window system meet the highest industry standards
 - ASTM F588 (Grade 10) forced entry resistance test
 - California CAWM 301 forced entry resistance test
 - Tested to DP-50 performance levels
