WINDOW OPEN CONTROL DEVICES

12814 WOCD

AmesburyTruth's 12814 WOCD has been tested to ASTM F2090 and is easily attaches to most wood windows.

Product Highlights

- Recommended for: wood
- Tested to meet ASTM F2090
- When properly installed and engaged, prohibits the free passage of a 4" diameter rigid sphere
- Once released and when the window sash is returned to a fully closed position, the WOCD mechanism will automatically reset
- Requires two WOCD for each window sash
- Optional stop (PN 12813) helps prevent damage where the stop makes contact with the opposing sash
- WOCD housing and stop material is zinc
- Easily attached to sash with two screws (2.809" X .319" housing)
